What our clients say about us

The inclusion of the project management tools is really important, because we can use them on our own projects now and in the future. One great thing about this course has been the exposure to quality articles and templates, which have been of an easily digestible length.

ELT Projects Manager, Pakistan

This course is very useful for anyone who wishes to grasp the fundamentals of the project management cycle. It was particularly rewarding to apply this knowledge straight at work and improve the project I am currently working on. The course has also raised my confidence levels in using the online learning environment.

ELT Projects Manager, Croatia

You guys were fabulous. I appreciated the supportive, friendly, yet professional tone. I was very grateful to be able to tap into your wealth of experience. And you know how to teach.

Professor, MA TESOL Dept. United States
